Chairman Martin
Federal Communications Commission
445 12th Street SW
Washington, DC 20036

Dear Chairman Martin and Commission Members,

I am writing this on behalf of Opportunity Village's community partner Las Vegas radio station KXNT. For more than 10 years, KXNT has contributed thousands of hours of their precious time and talent to help Opportunity Village raise funds to support its programs and services benefiting people with intellectual disabilities.

As a private, self-funded not-for-profit KXNT has and continues to be a very important community partner for Opportunity Village. Their efforts to fundraise on behalf of Opportunity Village are legend in Las Vegas. Last year, KXNT's signature fundraising event raised over \$25,000 to help support vocational training and day habilitation programs.

Opportunity Village has served people with intellectual disabilities and their families for almost 55 years. We have been able to do this because community partners like KXNT have stepped forward to support our mission. Last year, Opportunity Village served over 3,000 individuals and their families by offering vocational training, employment, day habilitation programs and social recreation opportunities.

Additionally, KXNT has participated in countless community awareness events on behalf of Opportunity Village through on-air and website promotions. We could not ask for more from them.

KXNT is a real community hero and should be the "face" of community partnership. On behalf of the 3,000+ families Opportunity Village serves during the year, I urge you and the members of the Federal Communications Commission to decline from imposing any rules or regulations that could hamper KXNT radio's ability to continue to provide their passionate and very necessary public service.

Sincerely,

Linda Smith
Chief Development Officer
